

## More about CHEDs

### *Status of a CHED:*

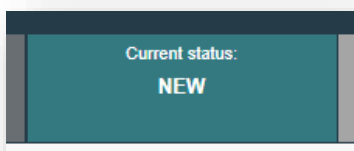

- **Unsaved:** the RFL has just initialised the CHED and has not saved/submitted it yet. The RFL can modify anything in PART I. At this stage, if the user exits the page, all the progresses will be lost. The BCP cannot see the CHED yet.

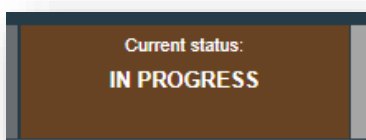

- **Draft:** the RFL has clicked on the button "Save as draft".

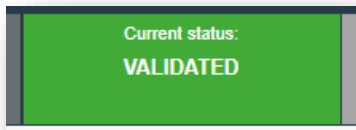

- **New:** the RFL has completed PART I and the CHED has been submitted for decision by the RFL to the Authority (button "Submit for Decision"). The BCP receives a notification, and is able to see and access the CHED with status "New". BCP can modify PART I. The RFL can still access the CHED and modify PART I until the document is in status "In progress".

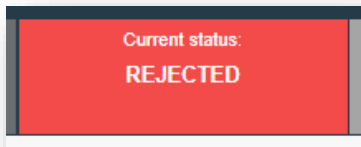

- **In progress:** the BCP has clicked on the button "Sign as in progress". The CHED is now locked for editing by the RFL. Only the BCP can edit it.

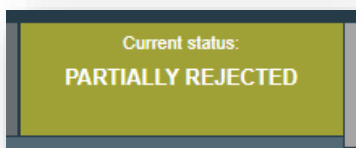

- **Validated:** the checks performed on the consignment are satisfactory and the BCP has validated the CHED. The document cannot be modified anymore.

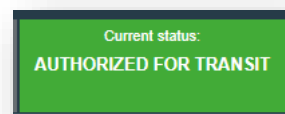

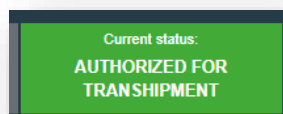

- **Rejected:** Some of the checks performed on the consignment are not satisfactory and the BCP has signed the rejection. The document cannot be modified anymore.

- **Partially rejected:** some of the checks on part of a consignment are not satisfactory and the BCP signs a Partial Rejection. Two other CHEDs will be generated (one with status “Validated” and one with status “Rejected”) and the one with status “Partially rejected” will be linked to the other two.

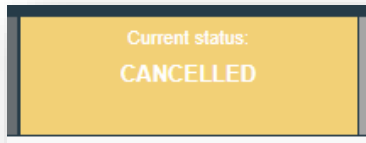

- **Authorised for transfer to/for transshipment/for onward travel/for transit:** in the Box “Purpose”, option I.20 has been selected.

- **Deleted:** the document has been Deleted. The RFL can “Delete” a CHED that is in status “Draft” or “New”. The BCP can “Delete” a CHED-PP in status “Draft”, “New” or “In progress”.

- **Cancelled:** the Authority who finalised the CHED has cancelled it when in the final status “Validated” or “Partially rejected”.

- **Replaced:** the “Validated” CHED has been replaced by a new one, which is the document that has legal value, by the Authority who finalised it.
